

Summer Liang

Hello, My name is Summer Liang. I earned an education degree in China and a business degree in the United States. I have been teaching Mandarin for nearly 10 years. I use movies, games, and activities to engage the students. It's more than just learning numbers and words, it's learning Chinese culture that will open their eyes to the world. I am so excited to continue to teach Mandarin. This is my 2nd year teaching Mandarin at EDUPRIZE. This will be a great school year.
