Invented, guided, and powered by 2 local nerds!

We began NERDING in 2014 to empower the next generation of thinkers, creators, and leaders by offering engaging STEM classes. Our mission is to cultivate the innate curiosity and intellect of young minds, fostering a lifelong passion for learning and innovation. We celebrate and nurture the traits of a true Nerd—curiosity, passion, creativity, perseverance, open-mindedness, collaboration, humility, and adaptability—to inspire kids to embrace their unique strengths and contribute positively to the world.
