

## How to Be Ready: A Summer Guide for Every Grade

Helping Every Student Start Strong

Each school year brings new opportunities for growth, challenge, and discovery. But students don't enter those new grades in isolation. The habits, knowledge, and confidence they carry with them set the tone for what comes next.

The *How to Be Ready* guide is designed to help families support learning during the summer months in simple, meaningful ways. For each grade level, you'll find:

- Key academic and life skills to focus on
- Recommended reading and enrichment ideas
- Practical strategies to strengthen readiness and independence

This isn't about pushing worksheets or replicating school at home. It's about offering students a gentle bridge between grades and a way to keep minds sharp, routines strong, and confidence growing.

Because every student deserves to walk into the new year ready to THRIVE!

## How to Be Ready for Kindergarten

Starting kindergarten is a big leap both academically and socially. Children entering kindergarten benefit from early literacy exposure, strong fine motor skills, and the ability to follow directions and routines. This guide helps families build a joyful foundation through play, conversation, and curiosity.

| Category               | What to Review   | Optional Resources  |
|------------------------|--|---|
| Reading                | Recognize and name all upper and lowercase letters; identify rhyming words; hold a book correctly and track print left to right                            | Alphabet flashcards, ABC Mouse,<br>Starfall   |
| Math                   | Count to 20; recognize numbers<br>1–10; identify basic shapes; compare<br>sizes and quantities   | Number songs, shape puzzles, sorting games  |
| Writing                | Draw shapes and simple pictures;<br>trace and write first name with a<br>capital letter  | Name tracing worksheets, dry-erase boards, fine motor activities  |
| Science                | Explore weather patterns, seasons, and living vs. nonliving things. Understand the 5 senses,   | Nature walks, simple science picture books, PBS Kids  |
| Life Skills            | Follow directions; zip/button clothing; use restroom independently; Should be able to participate in structured, meaningful learning with guided attention | Dress-up play, chore charts, visual routine cards   |
| Reading<br>Suggestions | Listen to stories daily; discuss<br>characters and events; build<br>book-loving habits   | The Very Hungry Caterpillar,<br>Brown Bear Brown Bear, Chicka<br>Chicka Boom Boom, Llama Llama<br>books, Pete the Cat, Owl Babies |

## How to Be Ready for 1st Grade

1st grade is a time of big academic leaps. Students begin mastering phonics, writing full sentences, and using numbers with greater fluency. This guide supports continued growth in reading, math, and independence as they move from learning-to-read to reading-to-learn.

| Category               | What to Review   | Optional Resources  |
|------------------------|--|---|
| Reading                | Identify all letter sounds; blend<br>simple CVC words (cat, sun); retell<br>stories      | Decodable books, Starfall, BOB Books  |
| Math                   | Count to 100; understand place value (tens and ones); add/subtract within 10             | Khan Academy Kids, number games, dice and card math, Khanmigo   |
| Writing                | Write full sentences with capitals/punctuation; spell sight words; draw to support       | Journaling prompts, handwriting practice sheets   |
| Science                | Observe weather/season changes; identify plant and animal needs; explore light and sound | Science museum visits, nature walks,<br>PBS Kids Science  |
| Life Skills            | Follow two-step directions; pack a backpack; use words to solve conflicts                | Visual schedules, routines, role-play games   |
| Reading<br>Suggestions | Read aloud with an adult daily;<br>build fluency with easy-to-read<br>series             | BOB Books, Elephant & Piggie, Frog &<br>Toad, Henry & Mudge, Yasmin, Miss<br>Nelson is Missing, The Snowy Day |

## How to Be Ready for 2nd Grade

By 2nd grade, students are building stamina—for reading, writing, and problem-solving. This year deepens their comprehension and introduces multi-step math thinking. Use this guide to keep those growing brains engaged and ready for more independence.

| Category               | What to Review   | Optional Resources   |
|------------------------|--|--|
| Reading                | Read and retell short chapter<br>books; identify main idea and<br>details; decode 1- and 2-syllable<br>words | Early chapter books, Storyline Online,<br>Epic!  |
| Math                   | Add and subtract within 20;<br>understand odd/even numbers;<br>work with place value to 100                  | Khan Academy Kids, splashlearn.com, card and dice games  |
| Writing                | Write complete paragraphs with topic sentences and supporting details; use punctuation correctly             | Sentence starters, writing journals, graphic organizers  |
| Science                | Understand simple life cycles;<br>explore weather, solids and<br>liquids, and landforms                      | Science picture books, nature observation logs, PBS Kids   |
| Life Skills            | Organize materials; manage time during tasks; work independently for 10–15 minutes                           | Visual checklists, time timers, responsibility charts  |
| Reading<br>Suggestions | Read aloud and independently<br>every day; begin exploring chapter<br>books with support                     | Henry and Mudge, Frog and Toad,<br>Magic Tree House, Nate the Great,<br>Amelia Bedelia, Mr. Putter & Tabby |

## How to Be Ready for 3rd Grade

3rd grade is often called a pivotal year. Students face higher expectations for reading comprehension, math fluency, and written communication. This guide helps bridge summer learning into confident readiness for more complex academic work.

| Category               | What to Review  | Optional Resources   |
|------------------------|---|--|
| Reading                | Read and summarize longer texts; identify character traits, cause/effect, and main idea; expand vocabulary                            | Chapter books, read-alouds,<br>Newsela, Storyworks Jr.   |
| Math                   | Master addition and subtraction within 100; begin multiplication and division (2s, 5s, 10s); understand fractions as parts of a whole | Khan Academy, flash cards, math fact games   |
| Writing                | Write multiple paragraphs with clear topic and supporting details; use proper punctuation and transition words                        | Paragraph organizers, mentor texts, writing prompts  |
| Science                | Explore animal and plant adaptations, weather patterns, and simple machines   | Science journals, interactive notebooks, Mystery Science   |
| Life Skills            | Follow multi-step directions; manage homework independently; ask for help appropriately   | Planners, after-school routines,<br>SEL picture books  |
| Reading<br>Suggestions | Build reading stamina with longer books; talk about themes and character growth   | Judy Moody, Magic Tree<br>House, Geronimo Stilton, Jake<br>Drake, Cam Jansen, The Boxcar<br>Children |

## How to Be Ready for 4th Grade

As readers and thinkers, 4th graders tackle more sophisticated texts and concepts. They begin to compare ideas, explain their reasoning, and take on greater responsibility. This guide offers simple ways to reinforce key academic and life skills.

| Category               | What to Review  | Optional Resources   |
|------------------------|---|--|
| Reading                | Read grade-level chapter books; identify<br>theme, point of view, and text evidence;<br>summarize across paragraphs                               | ReadWorks, Storyworks, graphic organizers, book clubs  |
| Math                   | Master multiplication and division facts (0–12); understand place value to 1,000; begin working with multi-step word problems and basic fractions | Khan Academy, flashcards,<br>math puzzle books, Math<br>Playground   |
| Writing                | Write multi-paragraph essays with clear introductions, supporting evidence, and conclusions; revise for clarity and organization                  | Writing prompts, checklists, peer-editing guides   |
| Science                | Investigate ecosystems,<br>weathering/erosion, energy transfer, and<br>scientific inquiry   | National Geographic Kids,<br>simple at-home experiments,<br>Mystery Science  |
| Life Skills            | Manage multi-step tasks; plan and track assignments; work independently for 20–30 minutes   | Student planners, chore charts, project checklists   |
| Reading<br>Suggestions | Read daily with a mix of fiction and nonfiction; discuss author's purpose and vocabulary  | Because of Winn-Dixie, Tales of<br>a Fourth Grade Nothing, Who<br>Was/What Was series, The<br>Wild Robot, The Lemonade War |

#### How to Be Ready for 5th Grade

5th grade is a year of expansion. Students deepen their thinking, tackle more complex texts and problems, and take greater ownership of their learning. This guide supports academic growth, independence, and the confidence to take on bigger challenges, while still making space for summer curiosity and joy.

| Category               | What to Review  | Optional Resources  |
|------------------------|---|---|
| Reading                | Read and analyze chapter books and<br>nonfiction; identify main ideas, summarize<br>texts, and cite text evidence                       | CommonLit, Storyworks, reading journals, graphic organizers                         |
| Math                   | Multiply and divide multi-digit numbers; add and subtract fractions; understand decimals and place value to the thousandths             | Khan Academy, math games  |
| Writing                | Write well-organized essays and narratives with strong introductions, supporting details, and conclusions; edit for grammar and clarity | Writing prompts, peer review checklists, mentor texts                               |
| Science                | Explore phases of the moon, matter, energy, and scientific inquiry; engage in hands-on investigations                                   | Mystery Science, Generation<br>Genius, interactive<br>notebooks                     |
| Life Skills            | Manage a weekly planner; complete long-term projects; participate in collaborative group work   | Time-management tools, goal-setting sheets, reflection journals                     |
| Reading<br>Suggestions | Read across genres; build vocabulary and stamina; discuss theme, tone, and perspective  | Hatchet, Esperanza Rising,<br>Number the Stars, Holes, I<br>Survived series, Wonder |

#### How to Be Ready for 6th Grade

6th grade is the final chapter of elementary school and a time to solidify foundational skills and prepare for the transition to junior high. Students are expected to show greater independence, manage responsibilities across subjects, and think more critically. This guide helps students strengthen academic habits and finish their elementary journey with confidence.

| Category               | What to Review  | Optional Resources   |
|------------------------|---|--|
| Reading                | Read and analyze fiction and<br>nonfiction; identify claims, text<br>evidence, and author's purpose;<br>summarize objectively   | CommonLit, ReadWorks, Scholastic<br>Scope, book clubs  |
| Math                   | Understand ratios and proportions;<br>divide with decimals and fractions;<br>use number lines, area models, and<br>equations    | Khan Academy, IXL, Math Games, Freckle Math  |
| Writing                | Write multi-paragraph arguments,<br>narratives, and informative texts;<br>use transitions, evidence, and<br>revision strategies | Essay organizers, student checklists, online grammar tools   |
| Science                | Investigate cells, body systems,<br>energy, and scientific method; build<br>data collection and analysis skills                 | Generation Genius, Crash Course<br>Kids, lab kits, PBS LearningMedia   |
| Life Skills            | Use a planner; organize materials; self-advocate in academic settings; manage time and group work                               | Digital planners, SEL journals, goal-tracking charts   |
| Reading<br>Suggestions | Read daily with attention to theme, perspective, and deeper meaning; engage in book discussions                                 | Percy Jackson series, Out of My<br>Mind, Refugee, Bud, Not Buddy,<br>Hidden Figures (Young Readers<br>Edition) |

### How to Be Ready for 7th Grade

7th grade marks the beginning of secondary school, where expectations rise and independence matters more than ever. Students navigate multiple teachers, more rigorous coursework, and a faster pace. This guide supports a strong start by reinforcing core academic skills, building executive function, and helping students grow into confident, self-directed learners.

| Category               | What to Review   | Optional Resources   |
|------------------------|--|--|
| Reading                | Analyze theme, character<br>development, and argument<br>structure; distinguish fact from<br>opinion; summarize complex texts        | CommonLit, Newsela, Scholastic<br>Scope, independent reading<br>journals   |
| Math                   | Work with ratios, percentages,<br>expressions, equations, and integers;<br>understand proportional reasoning<br>and basic geometry   | Khan Academy, IXL, DeltaMath,<br>Math Nation   |
| Writing                | Write structured argumentative,<br>narrative, and informative pieces; use<br>evidence, transitions, and varied<br>sentence structure | Essay graphic organizers,<br>Grammarly, peer editing checklists  |
| Science                | Explore ecosystems, genetics, and the scientific method; analyze data and construct evidence-based explanations                      | CK-12, Mystery Science, BrainPOP, interactive science notebooks  |
| Life Skills            | Track assignments, manage<br>long-term projects, ask for help<br>appropriately, and practice digital<br>organization                 | Google Calendar, student planners, digital folders, goal-setting tools   |
| Reading<br>Suggestions | Read widely across genres; annotate texts; reflect on theme, tone, and author's craft  | The Giver, Brown Girl Dreaming, A<br>Long Walk to Water, The Crossover,<br>Uglies, Warriors Don't Cry (Young<br>Readers Ed.) |

## How to Be Ready for 8th Grade

8th grade is the final push before high school. It demands sustained focus, stronger analysis, and growing leadership. This guide helps students solidify foundational knowledge while building the confidence and responsibility they'll need in high school.

| Category               | What to Review  | Optional Resources  |
|------------------------|---|---|
| Reading                | Analyze central idea, tone, and author's perspective; compare texts; evaluate arguments and evidence              | CommonLit, Newsela, Scholastic Scope  |
| Math                   | Solve linear equations and systems; understand functions; work with irrational numbers and exponents              | Khan Academy, IXL, DeltaMath, Math<br>Nation  |
| Writing                | Write thesis-driven essays with<br>strong evidence and<br>commentary; edit for clarity,<br>structure, and grammar | Writing portfolios, graphic organizers,<br>NoRedInk, peer editing protocols   |
| Science                | Explore physics, chemistry,<br>heredity, and Earth science;<br>conduct experiments and write<br>lab reports       | CK-12, Crash Course Kids, PBS<br>Learning Media, virtual labs   |
| Life Skills            | Manage multiple deadlines;<br>self-advocate with teachers; use<br>tech tools to organize work                     | Digital planners, checklists, goal-setting journals, email etiquette tools  |
| Reading<br>Suggestions | Read novels, nonfiction, and articles for depth; practice annotating and questioning the text                     | To Kill a Mockingbird, The Hate U Give,<br>Refugee, March (graphic novel),<br>Unbroken (Young Readers Ed.),<br>Fahrenheit 451 |

#### How to Be Ready for 9th Grade

9th grade sets the tone for high school success. Students are building their transcripts, forming academic identity, and learning to manage increased rigor. It is critical that 9th graders receive an A, B, or C in their courses. This guide helps them enter high school with confidence, organization, and a clear sense of what's ahead.

| Category       | Academic Habits to Strengthen  | Core Content to<br>Preview or Maintain  | College/Career Readiness<br>Goals   |
|----------------|--|---|---|
| Reading        | Read independently for 30+ minutes; annotate for theme, argument, and tone         | Analyze fiction and<br>nonfiction; identify<br>central ideas and<br>supporting evidence | Understand expectations for high school English and standardized test reading   |
| Math           | Show all work; check<br>answers for<br>reasonableness; ask<br>clarifying questions | Review algebra basics:<br>expressions, linear<br>equations, and<br>graphing             | Know your math track<br>(Algebra I, Geometry, etc.);<br>explore STEM career<br>connections, <u>Khan</u><br><u>Academy</u> |
| Writing        | Organize essays with clear structure; edit for grammar and clarity                 | Practice thesis<br>statements, citing<br>evidence, and writing<br>coherent paragraphs   | Learn MLA formatting;<br>begin creating a digital<br>writing portfolio  |
| Science        | Take structured notes<br>from text and lecture;<br>summarize lab results           | Review scientific<br>method, lab safety, and<br>basic biology or<br>physics concepts    | Practice writing lab reports<br>and using scientific<br>vocabulary in explanations  |
| Life<br>Skills | Use a planner (paper or digital); set weekly academic goals                        | Maintain assignment<br>folders and check<br>school email regularly                      | Understand credit<br>tracking, GPA, and how<br>9th grade impacts your<br>high school record                               |

## How to Be Ready for 10th Grade

Sophomore year deepens the high school experience both academically and personally. Students are expected to analyze complex texts, manage long-term assignments, and explore future pathways. This guide supports growth in content mastery and college/career awareness.

| Category       | Academic Habits to<br>Strengthen   | Core Content to<br>Preview or Maintain  | College/Career Readiness<br>Goals   |
|----------------|--|---|---|
| Reading        | Annotate texts for<br>theme, argument, and<br>author's purpose;<br>compare perspectives    | Literary analysis,<br>persuasive texts, and<br>nonfiction synthesis                   | Practice PSAT-style<br>reading questions (The<br>College Board); explore<br>interests through<br>independent reading              |
| Math           | Use formulas<br>accurately; explain<br>problem-solving steps<br>in writing                 | Systems of equations, geometry concepts, basic statistics and probability             | Review algebra concepts<br>for PSAT/ <u>SAT</u> ; connect<br>math topics to career<br>applications, <u>Khan</u><br><u>Academy</u> |
| Writing        | Write well-supported<br>essays and constructed<br>responses; revise based<br>on feedback   | Argumentative and literary essays, using evidence and transitions                     | Practice timed writing;<br>begin saving strong work<br>for scholarship and college<br>applications                                |
| Science        | Interpret data in<br>tables/graphs; explain<br>cause-and-effect<br>relationships           | Earth science, chemistry<br>foundations, scientific<br>inquiry and<br>experimentation | Prepare for labs and<br>assessments that require<br>scientific writing and data<br>analysis                                       |
| Life<br>Skills | Track assignments and<br>test dates across<br>multiple courses;<br>self-advocate for needs | Stay organized with<br>binders/folders; prepare<br>for group projects                 | Understand graduation<br>requirements; research<br>electives, CTE paths, or<br>career clusters                                    |

## How to Be Ready for 11th Grade

11th grade is high-stakes and high-impact. This is the year for college prep, ACT/SAT testing, and rigorous coursework. This guide helps students strengthen core skills, balance priorities, and position themselves for postsecondary success.

| Category    | Academic Habits to<br>Strengthen  | Core Content to<br>Preview or Maintain   | College/Career Readiness<br>Goals   |
|-------------|---|--|---|
| Reading     | Synthesize ideas<br>across texts; analyze<br>bias, tone, and<br>rhetorical strategies | Close reading of complex nonfiction and argumentative texts                                | Prepare for <u>SAT</u> /ACT reading sections; explore texts related to future college or career interests |
| Math        | Justify solutions;<br>apply math concepts<br>to real-world<br>scenarios               | Algebra II concepts,<br>functions, basic<br>trigonometry, data<br>analysis                 | Focus on math skills<br>relevant for SAT/ACT and<br>postsecondary entrance<br>exams, <u>Khan Academy</u>  |
| Writing     | Write persuasive,<br>analytical, and<br>research-based essays<br>with proper citation | Develop strong thesis<br>statements, embed<br>evidence, and refine<br>voice/style          | Build writing portfolio for college and scholarship applications  |
| Science     | Draw conclusions<br>from experimental<br>data; write lab reports<br>using evidence    | Chemistry or physics concepts, including atomic structure, motion, and energy              | Explore science electives or<br>dual enrollment aligned to<br>intended college or career<br>pathway       |
| Life Skills | Manage a detailed calendar; juggle academic and extracurricular priorities            | Complete summer work<br>or AP prep assignments;<br>maintain organized<br>notes and records | Build/update resume;<br>schedule college visits;<br>research scholarships and<br>application timelines    |

## How to Be Ready for 12th Grade

Senior year is about finishing strong and planning what comes next. Whether headed to college, career, or training, students need focus, follow-through, and decision-making skills. This guide supports a confident, prepared transition into life after high school.

| Category       | Academic Habits to Strengthen  | Core Content to<br>Preview or Maintain   | College/Career Readiness<br>Goals  |
|----------------|--|--|--|
| Reading        | Evaluate arguments in complex texts; read critically across disciplines                            | Nonfiction synthesis,<br>literature analysis,<br>college-level reading<br>expectations | Read sample college essays<br>and scholarship prompts;<br>strengthen academic<br>reading endurance                   |
| Math           | Apply algebra,<br>geometry, and<br>statistics to<br>real-world problems                            | Algebra II, financial<br>literacy, pre-calculus or<br>senior math pathways             | Practice math for<br>SAT/ACT/placement tests;<br>understand college/career<br>math requirements, Use<br>Khan Academy |
| Writing        | Refine voice and<br>clarity; complete<br>personal, analytical,<br>and reflective writing<br>tasks  | College/scholarship<br>essays, research writing,<br>timed essays                       | Draft college essays early;<br>create a writing portfolio or<br>digital showcase                                     |
| Science        | Conduct independent<br>research or capstone<br>projects; make<br>cross-disciplinary<br>connections | Environmental science,<br>anatomy, or advanced<br>physics/chemistry<br>concepts        | Prepare for science<br>coursework or labs in<br>college/CTE programs   |
| Life<br>Skills | Meet deadlines<br>without reminders;<br>communicate<br>professionally with<br>adults               | Maintain a resume,<br>organize college/career<br>paperwork                             | Finalize post-graduation<br>plan; complete FAFSA,<br>applications, and create a<br>transition checklist              |
