

INFINITE CAMPUS

PASSWORD RESET

Parents and students, the next time they log into the Portal, you must configure a **User Account Security Email** (e.g. an account recovery email).

This account security email is where a password/login reset email will be sent in the future, in the case of “FORGOT PASSWORD or FORGOT USERNAME” issues.

Passwords are required to be “strong” passwords. They must include a variety of symbols, numbers, and lowercase and uppercase letters. Users who previously did not use strong passwords must create a new password that meets the new requirements.
